Dear Jan Janssen

It looks me fun te work on at your company, many people saying that I have a creatif mind,that works a lot with nice colors , it looks me fun to have a change at your company,to deepen your business and learn a lot over a big company like Thuisbezorgd.nl

I'm a hobby photographer. I'm doing that for 5-6 years right now and I still like. I realy like it to photograp automotive, art, buildings, and nature. A part of nature is food, the most inportant thing in the hole integer world. Without food, no life.

I really looking forward to work with you and your team to make a nice end product!

Kind regards

Maarten Rood
